PLYMOUTH, May 12th.—After the fire had gained considerable headway some of those on board made preparations to desert the ship, but were prevented from doing so by the Captain, who threatened them with his revolver. When the iron bulkhead doors were opened the heat became so intense that many persons were seorched, and the cotton-bries around the passengers' baggage took fire. Casks of lard, which formed part of the vessel's cargo, also furnished fuel for the flames.

Hope had been well nigh abandoned and the boats had been lowered to leave the threatened Hope had been well nigh abandoned and the boats had been lowered to leave the threatened steamer, when it occurred to the Captain to turn steam instead of water against the fire. Thus plan was put into execution and proved successful. The passengers have presented the Captain with an address, and the crew with various gifts, as evidences of their gratitude and esteem for their good work in the midst of the awful dangers which encompassed them all.

DR. CRONIN.

The Story that He was Met and Interviewed in Toronto Doubted. Viewed in Toronto Doubted.

CHICAGO, May 12th.—The story telegraphed from Toronto to the effect that the missing Dr. Cronin had been seen there and interviewed is regarded with suspicion here and is generally discredited. J. J. Conwell, the reporter referred to in the Toronto interview as having introduced Le Caron, the British spy, to Dr. Cronin, stoutly denies the story, saying he never knew or heard of Le Caron until he testified before the Times Parnell Commission in London. He met Cronin but a few times in connection with local newspaper duties at the time when the met Cronin but a few times in connection with local newspaper duties at the time when the ancient Order of Hibernians were having some difficulty in Chicago.

Woodruff was taken to Lake View again today, and retold his story about the trunk and the human body it contained. His story is the same as that previously told. The only new clue discovered is the fact that a boat was stolen from a boathouse on the lake front near where the trunk was left in the Park and during the same night. It was large enough for three men. It has not since been found.

HIS FRIENDS CLAIM FOUL PLAY. HIS FRIENDS CLAIM FOUL PLAY.

New YORK, May 12th.—The morning Journal says a meeting of Irish Nationalists, friends of Dr. Cronin of Chrcago, was held Sunday to take steps towards co-operating with the Chicago investigators of the mysterious disappearance. Letters were read from Cronin's friends in Chicago, and speeches were made, the substance of which declared the belief of the friends that Cronin had either been abducted or murdered. The story from Toronto is not believed. Many of them think it is a "fake."

FLAX CULTURE.

The Crop That Will Take the Place of Many Wheat Fields. TON, May 12th .- Last night Profes WASHINGTON, MAY IZIN.—Last night Professor Vylietts, Assistant Secretary of Agriculture, ad under consideration a letter from Ireland, thich he thinks may offer a solution of the conomic problem, "What shall take the place of wheat on farms where it can no longer be aised at profit?"

of wheat on farms where it can no longer be raised at profit?"

The writer, who has been familiar with flax-growing and linen manufacturing since 1840, says in his interesting communication: "There are only two establishments weaving—one at Webster, Mass., and the other at Appleton, Wisconsia; the latter doing but little, and neither weaving anything finer than crash. Just as good flax and linen may be produced in every State in the American Union as in any country. Germany now spins and weaves the finest linen and she has no essentially different climate from that of Ametica."

"Many things become successful in America from the facility with which the people take them up and adopt the improved processes and appliances, and this may be the salvation of the linen industry, of the importance of which there is no question. There is every reason why American farmers should produce a million acres of flax over and above what is now produced, which would give from 12,000,000 to 15,00,000 bushels of seed, worth as many million of dollars, and two midion and a half tons of flax-straw worth \$50,000,000, and from which \$50,000 tons of flax fiber would be obtained, worth \$100,000,000. Once established, American invention would, as in all other industries, soon build up an industry to consume this raw material."

lld up an industry to consume this raw maerial."

Professor Wylletts has informed the sender hat the subject of his letter would be earnestly considered by the Department, which would end its a d to any effort to increase or diversify

he agricultural industries of the country. EASTERN RACES.

The supposition always has been that Corwith's gigantic failure in business was solely the result of an ill timed attempt to corner the lead supply of the world. As now revealed, the real reason was a very different one. The facts as related in brief are that Corwith's every move in speculation was being "coppered" with his own capital, by his own son Gurdon Corwith, and that before the erash came, \$1,100,000 had been withdrawn from the old man's coffers and sunk in operations in which the younger Corwith was at the time a metal broker in New York and induced his father to believe he had exclusive information regarding the plans of the French copper syndicate as to lead.

The father was in poor health and allowed his son unusual leeway. Until the actual collapse was reached, Corwith believed he had an enormous amount of lead on hand and paid for, when the fact was that the lead he had purchased had been sold and the process with the lead he had purchased had been sold and the process with the control of the contr Men of His Escort Disabled.

WAR OF RACES.

Colored Men Burned Out in a Louisiana New Orleans, May 12th.—As the result of a fight between some negroes and whites last treesday at Gretna, in which two men were seriously injured, trouble has been brewing and culminated last hight in quite a row. This morning one troop of cavalry was sent culminated last hight in quite a row. This morning at lo'clock fire broke out in the engine house of the colored fire company and the colored militia company arsenal adjoining was burned also. A large crowd of whites and negroes gathered and a delegation of the Gretna militia (white) went to the scene.

Several negroes refused to leave the burning building until they were in danger, alleging they were afraid to face the armed whites. When they finally came out a fight ensued and some of the whites fired, seriously wounding three negroes. All this time the fire was spreading and several houses were destroyed, the flames finally dying out for want of fuel.

During the conflagration a large number of white men armed with shotguns, riles and pistols, congregated around the scene and prevented any negro from coming within 100 yards of the fire. Town-A Reign of Terror. After the fire was over armed squads of whites

Rich Gold Placers Discovered. CHICAGO, May 12th .- A special from Dead-Chicago, May 12th.—A special from Dead-wood, Dakota, says: Great excitement prevails owing to the discovery of rich placer diggings about forty miles from here. The prospecting of these diggings last year on a small scale showed gold in large quantities, and in renew-ing the work this spring the secret got out, and now men are rushing to the new gold fields from all directions, on foot, on horseback, and with teams, taking tents, provisions and com-plete mining outfits. Government Paymaster Robbed-Eight

Men of His Escort Disabled.

Tucson (Ariz.), May 11th.—A desperate running fight occurred this afternoon three miles north of Cedar Springs, in Graham county, near Fort Thomas, between an escort of eleven men accompanying Paymaster Major Wham and his assistant, dibbon, and a party of ambushed highwaymen. Major Wham was on his way to pay off the Government post at Fort Thomas, and when in a narrow gorge was attacked. After a desperate pitched battle, lasting haf an hour, eight of the eleven men of the escort were either fatally wounded or disabled so as to render further resistance impossible. The robbers succeeded in getting away with \$29,000. The coach was draan by four mules, and they dashed down a steep grade with Major Wham and his assistant inside. The brigands opened fire on the flying conveyance, the escort rapidly firing in return. Major Wham and Gibbon were armed with repeating rifles and a perfect storm of bullets rained for thirty minutes Major Wham came out of the engagement untouched. Mr. Gibbon was shot through his clothing, but he was unsarrached.

JUSTICE JACKSON TEMPLE.

Poor Health Causes Him to Resign From the Supreme Bench.

San Francisco, May 12th.—Justice Jackson Temple of the State Supreme Court has written out his resignation, to take effect on June 1st, and it is probably in the hands of the Governor. This action was not unexpected, as Judge Temple has been in poor health for the past eighteen months and has done little work on the bench. He has drawn no salary however, for the time months and has done little work on the beuch. He has drawn no salary, however, for the time that he was unable to attend to his duties. As he felt that the work of the Court required a full behch he has talked about resigning for some time. His many friends urged him to remain on the bench as they pointed out that his resignation would be a serious loss to the State. He came to the conclusion that his health would not improve unless he gave up hard study altogether, and lately made no secret of his intention to resign. It is rumored that Governor Waterman will appoint Oregon Sanders, a local attorney of Tulare, to fill the vacancy.

It is also said that the Supreme Court has decided about the five Court Commissioners it has to appoint. The present Commission, consisting of Messrs. Foote, Hayne and Melcher, will be reappointed and the two additional places, it is said, will be given to ex-District Judge Van Clief and Mr. Gibson of San Bernardino.

Accidental Death.

Portland (Oregon). May 12th.—Yesterday a voung man named James Stahinecker, aged about 20 years, living near Milwankee, fatally shot himself while carelessly handling a revolver. He had started to go to a picnic with several other young men, taking with him an old revolver that had not been used for a long time. Young Stahlnecker had fired one shot, but the next chamber refused to explode. He took a stick and began picking at the cartridge to see what was the trouble, and while doing so the pistol was discharged, the ball taking effect in the center of his forehead. Stahlnecker lived a very short time.

W Baumgardner preached from the text, Malachi iii., 10: "A perfect service; an abundant reward." The practice of tithing, said the speaker, was primarily a volun-tary tax for the support of the servants of the sanctuary. Tithing afterwards became a law incorporated in the Mosaic statutes. One-tenth of the annual production was therefore sacred and was set apart as belonging to the house of the Lord. (2 Chr. xxxi.,5, 12.) At a later period of the Roman rule, the high priests often laid violent hands on the priestly tithes, thus bringing the curse of God on them. Bring ye in al the tithes: the Lord requires a perfect service, or sacrifice in all the offerings we bring to Him, before he can bestow the expected favor or blessing. He is rich in grace and has an abundance for every soul, but He cannot bestow of His grace and spirit until the conditions are met with a perfect sacrifice. The entire will, with all that man pos burden, that the rich lessons of nature and sesses, must become subject to the will of God. A perfect yielding and giving up to providence to the souls of men, and that God and His will brings the soul into exalted ideals will ever beckon humanity onward to compass still larger possessions

Brothers and sisters, are you in possession of that full, overflowing blessing of God's love? If not; why not? A FEAST FOR EYE AND EAR. large audience assembled at the

growth.' Rev. C. A. Fackenthal of Napa officiated at St. Paul's Church yesterday. In the evening his sermon was from John iii. 2:,
"It doth not yet appear what we shall be."
The central thought of the brief discourse was that we do not know what will be our condition in the world beyond. Much that is told us of it is of a negative character and conveyed to us in symbolism God's promises must be sufficient to us. I is well that we do not know that the mys tery is not unveiled, for without this pro bationary discipline would be valu to fit us for a higher state. We have

enough of promise to quicken hop vitalize faith and uphold our sould A full disclosure would unfit us for th work assigned us here. We have not th faculty to comprehend it all were all to us, for the hereafter is beyond the limita-tion of human intelligence, to which no count could be made adequate of compre bension. We know in part, we see through a glass darkly in part. AT THE SALVATION ARMY Barracks last night there was a large attendance, mainly of people who will not, or do not attend the churches. It was an orderly, attentive audience and many ladies among it. The sermon was by a woman on a text concerning God's blessings. The

central thought was that God's blessings are not full, they are conditioned that we shall turn our backs upon sin, be clean in our lives, avoid evil ways, love God an keep his commandments, and so doing the rewards of God's promises are certain. I was an earnest orthodox and well delivered rational discourse.

AN UGLY DISCOVERY.

A Report That Should Be Read. "A recent analyzation in Philadelphia by a celebrated chemist of ten popular brands of sarsaparilla discloses the astonishing fact that these ten samples of blood purifiers (?) contained in the aggregate sixteen different min erals, eleven of which were active poisons. Iodide of potash was discovered in every sample, mercury was found in all but two, while arsenic existed in six of the ten brands. Not one brand was the pure article."

A reporter took the above clipping to E. W. Joy, the manufacturer of Joy's Vegetable Sarsaparilla. Mr. Joy exhibited no surprise. He said druggists knew it. He said he long ago saw the crying need for a safe and absolutely pure vegetable preparation of Sarsaparilla, hence his was named Joy's vegetable sarsaparilla, because it contained nothing but pure syrup of sarsaparilla, combined with the pure julies of California's vegetable alteratives. Unlike potash sarsaparillas, it does not force impurities through the skin but stimulates the various secretive organs, thereby correcting functional derangements and eliminating all impurities through the natural channels.—San Francisco Examiner.

THE Placerville Mountain Democrat, in that Hon. Henry Mahler has written to one of the Commissioners of the Marshall Monument, suggesting that the grounds at the monument site, which are owned by the State and are nearly thirty acres in extent, should be utilized by the Forestry Commission as an experimental station for the cultivation of varieties of forest trees that are perceptibly diminishing. The suggestion is a good one. We believe that the grounds referred to are well watered, and by location are peculiarly adapted to arboriculture, and that for the mountain varieties of certain trees are highly preferable. There are some of the conifers that are nearly extinct, the predatory habits of the squirrel and the industry of those who gather the seeds of our mountain cone-bearers for sale in Europe, and should be taken, though, that we do not other causes, are making such inroads that enforce our standards arbitrarily on any the time is not far distant when some of the most valuable of our mountain trees the conditions of one life may best sub-Marshal Monument grounds could be used for no purpose better than that of arbori

Brief Sermons.

At the services of the First Unitarian Society yesterday, Rev. C. P. Massey spoke from Mark ii, 27: "The Sabbath was made for many and not many for the Sab world's highest possible spiritual thought. Upon it hangs the world's highest possible spiritual thought. Upon it hangs the world's highest possible spiritual thought. Upon it hangs the made for man, and not man for the Sab-bath." The speaker alluded first to the social and economic torces that are so ch social and economic forces that are so absolutely tyrannical in their play, and regretted that a power was here manifested that was fostering in our modern life an that was fostering in our modern life and the social was the world has known. Paul could afford to glory in it."

After following the gospel through its work for individuals and for the race, insisting that it was the whole gospel, the ever increasing secularization of Sunday gospel with a divine Christ and an atoning

SACRAMENTO COMES UP SMILING WITH THE TARGET.

"Luck" Still Against the Capital space.] City Team-Good Ball Played at the Wrong Time.

At Snowflake Park on Saturday the Sacramento Club was beaten by the San Franciscos by a score of 9 to 6. There was no heavy batting to speak of on either side. Strange to say, the Sacramentos got just as many base-hits as their opponents, and s had the only two-base hit and three-bagger san Francisco in the game, but still they did not win, nor did they come anywhere near it. The Games Lost .. trouble was that they could not hit the ball when they needed to, and for this reason they lost. In one of the innings in of the season was played this afternoon the middle of the game they placed three before a good crowd. The score wasmen on bases without an out, but none of Franklins 8, Santa Cruz 7. the next three batters could hit safely, and the three men "died" on their bases. Roxburg, in trying to stop wild balls, got a "finger" several times, and a few other slight accidents occurred.

Hapeman was exceedingly wild, and although the score shows no wild pitches against him, some of the passed balls against Roxburg ought to have been alongside Hapeman's name as wild throws.

Veach was presented with a bouquet when he came to the bat for the first time. His late suspension evidently did not agree with him, for he did not make a hit-an unusual occurrence for him. After having received the posies he calmly "wafted" three times. Following is the score: SAN FRANCISCOS.

ALMOST SHUT OUT. Stockton Receives a Drubbing at the

Hands of Cakland. At San Francisco on Saturday the Oakland and Stockton Clubs played ball and the Banner Island nine was beaten by a score of 9 to 1. A large crowd was in attendance and the game was not very interesting excepting for a few fine plays that were made. Coughlin, the Oakland pitcher, kept up his Schmidt. record as the best twirler in the League, and allowed the Stocktons to score but three base-hits. Baker, of the Slough City nine, was sized for twelve hits, four of Girls' race four them being doubles. Dooley, the firstbaseman of the Oaklands, distinguished himself on first, accepting twenty chances ! without a "juggle" and assisting in a double play. Long, O'Neill and Hardie did the heavy batting for the Oaklands, the former driving out three base-bits. Sheri dan umpired the game in his usual style and consequently there were no "kicks." The Oaklands made their nine runs in the first, fourth and sixth innings. The Stocktons made their solitary run in the first inning and added ciphers in the following
